<b>Assignee:</b>	Benoit Duffez	<b>% Done:</b>	0%
<b>Category:</b>			
<b>Target version:</b>	0.13		
<b>Description</b>			
First screen would be a list of buttons:			
<ul style="list-style-type: none"><li>• <i>feedback</i>: ask for just two things + submit button ** a dumb text ** optional 5-star happiness rating</li><li>• <i>problem report</i>: several radio/check boxes + text + submit button ** sections of the app: issues/projects/roadmaps/wiki/servers/synchronization ** frequency: all the time/sometimes/erratic ** severity: critical/annoying/I can live with it ** text notes</li><li>• <i>translation issue</i>: language picker + text + submit ** dumb text ** language</li><li>• <i>other</i>: ** dumb text ** optional 5-star happiness rating</li></ul>			
Has to be			
<ul style="list-style-type: none"><li>• 3 separate screens</li><li>• very clear indication that there are only 3 steps and that it is <i>quick</i></li><li>• clear UI and large buttons to ease the process</li></ul>			
To be thought: how to design this for 7" and 10" tablets.
